Thanks for joining us this month as we take a Mediterranean tour by way of Dalworthington Gardens, where this beauty of a dwelling is situated on over an acre in the prestigious Wooded Creek Estates.

As the aerial view above and outdoor photos to the left suggest, there is plenty to love about this home. And we haven't even stepped inside.

Once we do, we find soaring ceilings and an abundance of natural light that make this home both a showcase and a wonderful place to entertain guests.

The kitchen features restaurant-quality appliances with a walk-in pantry and

island. The master suite is truly masterful with a fireplace, a separate seating area, and separate walk-in closets and vanities.

Downstairs there is a guest suite and a game room complete with a wet bar, and throughout the dwelling there is plenty of room to roam.

Statistically speaking, the 6,606-square-foot house has five bedrooms and 5.2 bathrooms – and enough trees all around to ensure privacy and shade.

The recently purchased home was listed by Kelli Brosig of Ebby Halliday REALTORS. To find out about other homes Brosig has on the market, email kellibrosig@ebby.com.
